Work Experience

Tactic-Financial Services	Frontend Developer Intern| Pune, IN	**Feb'23 - Apr'23**

- Developed a React-based web application for Tactic Financial Services and contributed to the updated HR Tactic Money website.
- Implemented a trade panel using ReactJS based on the provided Figma file for the Tactic Money website, with new colors, enhanced button styling & navigation.
- Improved website responsiveness, resulting in a 10% increase in website traffic.
- Gained familiarity with React Native concepts and integrated the Appsmith.com database to showcase the concerned trades.

Atharva Associates	Software Developer Intern| Mumbai, IN	**Nov'22 - Dec'22**

- Developed a front-end web application for the company's website using HTML, CSS, and Javascript.
- Was engaged in implementing the web page designs and working on the UI/UX features based on project requirements.
- Expanded the company's web presence, leading to increased website activity in three additional states.

Projects

NotesAdda - Notes Taking web-app
TECH-STACK - NodeJS | EJS | MongoDB

- Created a notes-taking full stack web app with Nodejs as a backend, and EJS as the frontend, with MongoDB as a database.
- The project has all CRUD Functionalities, such as creating, searching, updating, and deleting Notes and seamless pagination.

Connectify - A Social media app
TECH-STACK - ReactJS | Chakra-UI | Firebase

- Built a highly effective React-based social media platform like Twitter wherein the user can post their views and thoughts, and other communities could like and comment.
- Created the user interfaced with Chakra UI components and integrated Firebase authentication and Storage.

Uber Clone
TECH-STACK - ReactJS | TailwindCSS | Firebase

- Designed a Uber Clone using ReactJS, as a front-end, tailwind CSS for styling, and Firebase as a s back-end.
- This project helps users to search locations, check prices, and book cabs.

2048 Game
